

Let's Talk

Stem Cells

PUPIL SHEET

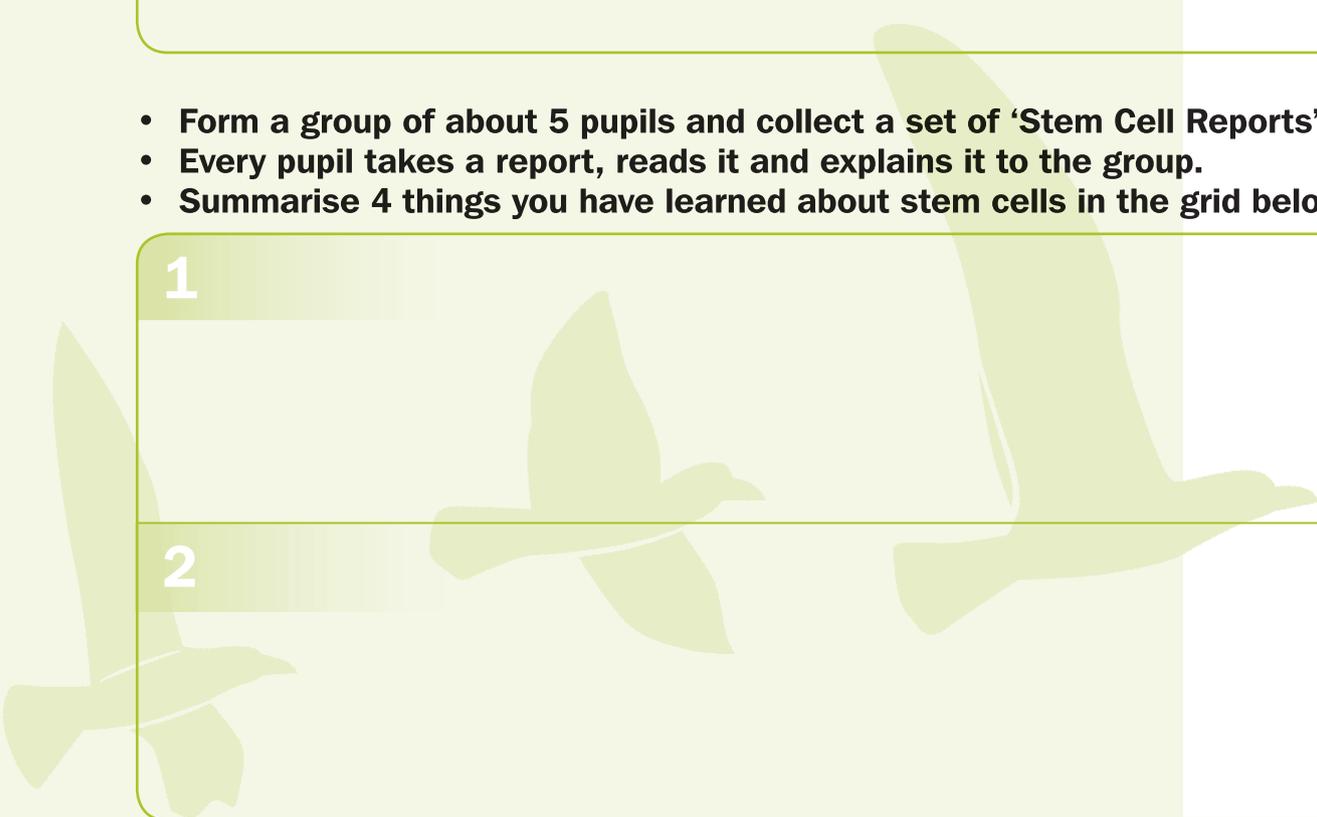

What do you think is so special about stem cells?

Describe a difference between embryonic and tissue or adult stem cells in the box below.

- Form a group of about 5 pupils and collect a set of 'Stem Cell Reports'.
- Every pupil takes a report, reads it and explains it to the group.
- Summarise 4 things you have learned about stem cells in the grid below.

1

2

3

4

Read the Stem Cell Story and then as a group complete the ethical matrix grid.

Can you say what the main dilemma is?	Who are the main people who should make the decisions?	What are the possible solutions?	Can you justify the best solution?
